

ADELIO FERHAN SOEBROTO

081181187530

| dhioferhan@gmail.com | <https://www.linkedin.com/in/adelio-ferhan-s/>

Adelio is an Information Systems graduate (Summa Cum Laude) with strong experience in business process mapping, systems operations, and data-driven problem solving. At Telkomsel he streamlined product changes and platform integrations across postpaid, roaming, and ad tech, ensuring accuracy and efficiency while coordinating with cross-functional teams. He has hands-on exposure to ERP concepts, SAP, and business process improvement tools, and quickly adapts to new systems. He is seeking an internship opportunity in Business Process where he can contribute to operational efficiency projects and gain deeper industry experience.

Work Experiences

Telkomsel - South Jakarta, Indonesia

Aug 2023 - Aug 2024

Business Solution Management (Postpaid, Roaming & Interconnect)

Telkomsel is Indonesia's foremost telecom and digital services provider, known for its widespread network coverage and innovative solutions. A key player in connecting millions across the archipelago, Telkomsel is at the forefront of shaping Indonesia's digital landscape with its commitment to technology advancement and enhanced connectivity.

- Triaged and validated roaming product change requests, ensuring accurate execution so international connectivity remained stable for subscribers.
- Executed 200+ third-party payment configurations in the MyTelkomsel app (e.g., OVO, GoPay), expanding options and reducing checkout friction.
- Operated MassTools and DigiCore to implement configuration updates and keep parameters consistent across systems.
- Managed 34+ DigiPos requests end-to-end (intake → update), helping keep retail product data aligned with back-end changes.

Telkomsel - South Jakarta, Indonesia

Sep 2024 - Dec 2024

Ad Tech Project Management

- Led the rollout of header bidding for programmatic ads, coordinating tasks and timelines across internal teams and external partners.
- Drafted clear business requirements for PStudio enhancements to align stakeholders on scope, acceptance criteria, and impacts.
- Configured PStudio for 12 publishers and coordinated 5 key partners to ensure reliable placements and performance.
- Proposed a lightweight project-management cycle to standardize future platform improvements and reduce rework.

DASPRO Laboratory - Bandung, Indonesia

Feb 2023 - Jun 2023

Programming Algorithms Practicum Assistant

- Led 10+ practicum sessions, guiding labs and ensuring smooth execution against lesson plans.
- Delivered concise explanations of algorithms and programming fundamentals to accelerate student comprehension.
- Coordinated with lecturers and lab staff to refine materials and improve the overall learning experience.

Indonesia Mengajar - Jakarta, Indonesia

Feb 2024 - Jun 2024

Collaboration Project

- Ran structured market and competitor research to inform partnership strategy and positioning.
- Identified 4 CSR-aligned partners and designed 2 program concepts aligned to mission and stakeholder needs.
- Completed a grant proposal enabling collaboration with the U.S. Embassy, clarifying objectives, fit, and expected outcomes.

Education Level

Telkom University - Bandung, Indonesia

Sep 2021 - Aug 2025

Bachelor of Information Systems, 3.96/4.00

- Telkomsel Service Bond Scholarship Awardee
- Honors: Summa Cum Laude.

Organisational Experience

IndonesiaNEXT - Jakarta, Indonesia

Jun 2024 - Sep 2024

Participant — Hustler Track

National upskilling program for digital talent.

- Completed enrichment modules and built an AI-startup concept aligned to SDGs, applying Business Model Canvas and Value Proposition Canvas to clarify problem-solution fit.
- Produced core deliverables (canvas docs, early marketing diagrams) and iterated with mentor feedback.

AIESEC in Bandung - Bandung, Indonesia

Oct 2021 - Feb 2023

Head of Organizing Committee

AIESEC is a global platform empowering youth through practical experiences to unlock leadership potential. Established in 1948, it offers impactful opportunities and is driven by youth.

- Led Events across Program, Creative, and Finance workstreams; coordinated timelines and handoffs.
- Headed iGreen 2022 end-to-end—set concept and run-of-show, aligned committee roles, and delivered a smooth event.
- Served as MC/Moderator, keeping sessions on time and audience engaged.

AIESEC Indonesia - Jakarta, Indonesia

Nov 2021 - Dec 2021

Head of Event

- Organized the “Youth Rising SDGs” program as Tribe-2 lead for IYLC; coordinated content on SDG-4/SDG-13 with cross-chapter team.
- Delivered outreach via a Zoom webinar at SMA Theresia 1 and opening remarks on SDGs

Enterprise Data Management Laboratory - Bandung, Indonesia

Jun 2023 - Feb 2024

Member

The research laboratory, under the Cybernetics expertise within the Information Systems Study Program at the Faculty of Industrial Engineering, Telkom University, serves as an ideal environment for students passionate about computers and technology, particularly in the realms of Data Science and Data Engineering.

- Maintained active awareness of current trends and advancements in the data engineering domain.
- Collaborated with EDE teams; practiced SQL and Python in lab projects; tracked data-engineering trends.
